KADON ELECTRO MECHANICAL SERVICES LTD. BECOMES TURBOCARE CANADA, LTD.

Calgary, AB, May 3, 2007 – Kadon Electro Mechanical Services Ltd., a TurboCare business, with operations in Calgary and Edmonton, announced today the change of its corporate name to TurboCare Canada Ltd., effective immediately.

The announcement was made today at a 30th Anniversary event held at the company's facility in Calgary, Alberta, Canada. Attending customers celebrated the unveiling of the TurboCare logo and toasted to the launch of TurboCare Canada, Ltd.

TurboCare Canada, Ltd., (formerly Kadon) offers customers a wide range of turbomachinery and electro-mechanical rotating equipment repair services, including parts refurbishment and manufacturing and will be expanding their service offerings to include system retrofits, reverse engineering, equipment refurbishment, component repair, control systems upgrades, and parts replacement services.

About TurboCare

TurboCare is a leader in providing integrated aftermarket solutions, including repair services and replacement parts for virtually all makes of turbomachinery, and specializes in the design, manufacture and application of engineered component and repair upgrades.
